Station Extender

Protects your keyboard, monitor, and mouse.

Key Features

Extends PC keyboard, monitor, and mouse 200 feet from CPU.

Compact design.

Compatible with all PCs.

Technically Speaking

The Station Extender lets you place your PC keyboard, monitor, and mouse up to 200 feet away from the CPU. Now you can protect your valuable equipment, reduce clutter, and provide additional security.

Several configurations are available to allow solutions for most user situations. The Extendor also supports PS/2® style and RS-232 mice.

It works independent of operating systems or applications, so it doesn't interfere with user operation. All electronics are in a cable connector shell for plug-and-play installation.

For these and other components...
Call our expert Technical Support Staff for all your Switch needs on 0118 965 6000. They'll help you find the best equipment for your application.
