FOLD-DOWN PANELS AND FRONT-ACCESS PATCH PANELS

The perfect solution if you don't have a lot of space and a rack is more than you need.

Key Features

- ▶ **Mounts easily to racks or walls.**
- ▶ **Stacks vertically.**
- ▶ **Folds down or swings open.**
- ▶ **Multiple cable-entry points.**
- ▶ **CAT5 and CAT5e versions.**
- ▶ **Perfect for small-office network applications.**

The Hinged Fold-Down Panels are the perfect alternative to racks. They serve as a bench that supports the patch panel during termination. And they're ideal when access to the rear of a rack or cabinet is limited.

Models are available in rack and wallmount versions, and CAT5 and CAT5e versions. The wallmount versions not only hinge down, but also swing out to the side for maximum flexibility.

All Hinged-Fold Down Panels allows the panel to be terminated from the front. And the compact

design lets you squeeze in multiple patch panels.

The Front-Access Panels provide front-access termination and patching in Category 5 and 5e performance levels. Use these panels to eliminate cable congestion behind the panel.

These panels are perfect for use in small-office network applications as a convenient, durable high-performance cross connect.

JPM200A and JPM201A are fully assembled wallmount versions. They include a 48-port

patch panel hinged to a 3.5-inch (8.9 cm) cable-management panel, and a wallmount bracket with cable entry points on both sides on the rear of the brackets. JPM200A is the CAT5-compatible version; JPM201A is CAT53-compatible.

JPM202A and JPM205A contain the 48-port patch panel hinged to the cable-management panel. These Panels are for direct attachment to a relay rack or cabinet and do not include a wallmount bracket. JPM202A is CAT53 compatible; JPM205A is CAT5 compatible.

Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p. m. and you need help, but your vendor's tech support line is closed.

According to a survey by Data Communications magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a

vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.

Specifications

Ports — JPM047A: 12; JPM048A: 24; JPM200A, JPM201A, JPM202A, JPM205A: 48

Wiring — T568B

Size — JPM200A: 7"H x 19"W x 4"D (17.8 x 48.3 x 10.2 cm); JPM205A: 7"H x 19"W x 1.5"D (17.8 x 48.3 x 3.8 cm); JPM201A, JPM047A: 2.5"H x 10"W x 1.5"D (6.4 x 25.4 x 3.8 cm); JPM202A, JPM048A: 3.5"H x 19"W x 1.5"D (8.9 x 48.3 x 3.8 cm)

Weight — JPM200A, JPM201A: 8 lb. (3.6 kg); JPM202A, JPM205A, JPM048A: 4 lb. (1.8 kg); JPM047A: 2 lb. (0.9 kg)
