CAT6 TERMINATION AND INSTALLATION KITS

Multi-Strip Cable Stripper

Crimp Die

Multi Quick Check Tester

Modular Crimp Tool

Category 6 Modular Plug (25 in package)

Everything you need to terminate or install Category 6 cable!
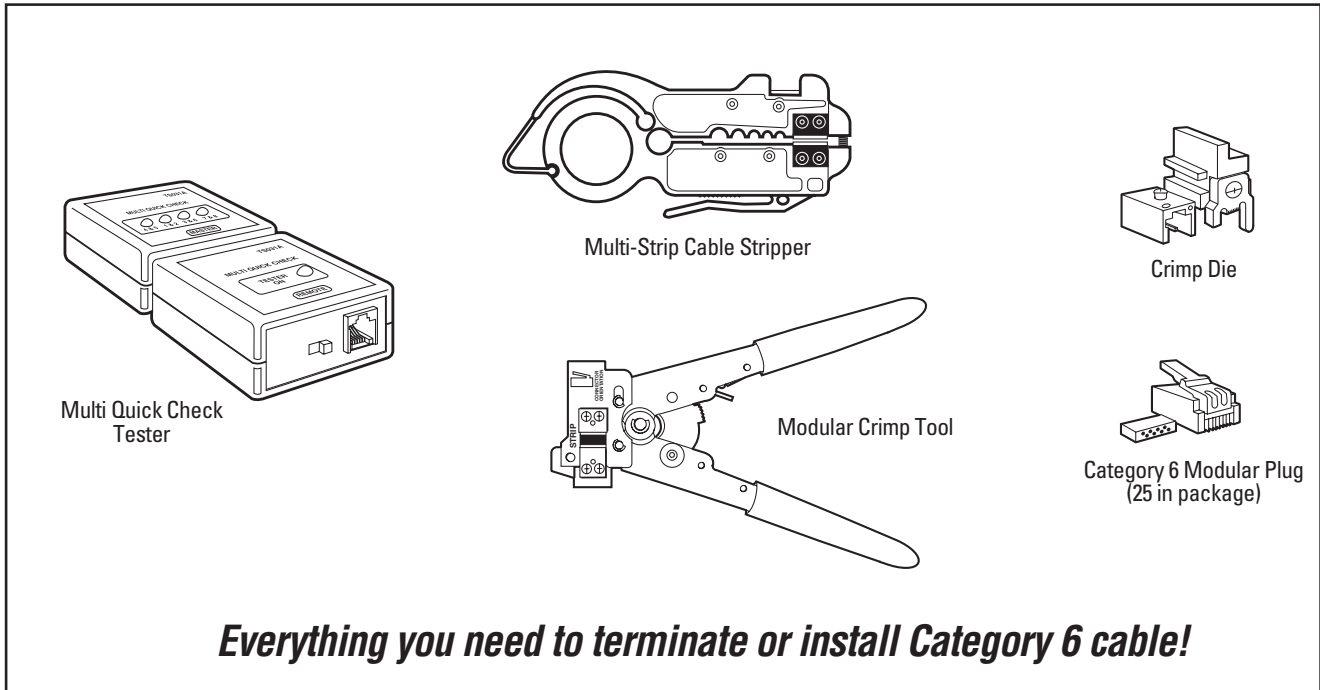

Key Features

▶ **Terminate and install Category 6 cable.**

▶ **Save money by ordering these kits instead of ordering each item separately.**

▶ **Each item complies with the Category 6 standard.**

▶ **Installation Kit also includes the Category 6 cable you'll need!**

▶ **Cables are guaranteed for life.**

These handy kits include everything you need for installing or terminating Category 6 cable—at a price you can afford! The kits also keep your tools organized and protect them from dust. Choose either the CAT6 Termination Kit or the CAT6 Installation Kit.

Both kits include (1) Multi Quick Check Tester, (1) Multi-Strip Cable Stripper, (1) Modular Crimp Tool, (25) CAT6 Modular Plugs, (1) Crimp Die for Modular Jacks, and (1) carrying case. The Installation Kit also includes a boxed spool with 1000 ft. (304.8 m) of Category 6 cable for tangle-free

installation. And the cable is guaranteed for life.

The Multi-Quick Check Tester checks Ethernet 10BASE-T, Token Ring, and T568A or T568B cabling for shorts, opens, and miswires.

The Multi-Strip Cable Stripper slits and strips cable, and also features a tension loop and an adjustable screw to control blade penetration.

The Modular Crimp Tool strips, cuts, and terminates Category 6 cable.

The Modular Crimp Die lets you crimp RJ-45 connectors onto the cable.

For more information on the Multi Quick Check Tester, see FaxBack #14481. For more information on the Multi-Strip Cable Stripper, see FaxBack #15554. For all other products in the kits, call Black Box Technical Support at 724-746-5500.
