# ELITE II SERVER CABINET

This server rack accepts "server-specific" side-mounting adapters for HP, Compaq, and Sun.

A	28.75" (73 cm)
B	29" (73.7 cm)
C	82" (208.3 cm)
D	84" (213.4 cm)
E	40" (101.6 cm)
F	42" (106.7 cm)
G	24.5" (62.2 cm)
H	78" (198.1 cm)

Key Features

▶ *Organize servers from different vendors in the same rack.*

▶ *Choose from three pairs of adjustable M6 rails (included).*

▶ *Mesh panel inserts on the front and rear doors and the top panel provide ventilation.*

▶ *Bolting the cabinet to the floor is easy via the ¾" anchoring holes.*

▶ *Gives you generous cable access.*

If you have servers from different vendors, and you need a convenient way to organize them, look no further. With the Elite II Server Cabinet, you can mount these servers in the same rack.

Three pairs of adjustable M6 rails hold "server-specific" side-mounting adapters for HP®, Compaq®, and Sun®.

Fully loaded, the cabinet can hold up to 1800 lb. (816.5 kg). Your equipment is stable when installed, supported by retractable anti-tip legs. The reversible door swings out 180° and lifts off easily.

Ultra-light split side panels make the cabinet easy to handle. Center side posts reinforce the side panels.

So what do you do if you need more room than just one cabinet can supply? You can network cabinet frames together. To do this, remove the side panels, then the knockouts on the side, then the two plastic plugs on the frame. Simply bolt the cabinet frames together through the plug holes with ordinary ¼-20 hardware (not supplied).

Among optional accessories are cable managers, sliding adjustable or fixed shelves , a sliding server shelf, a pivoting keyboard tray, and adapter brackets for Compaq, HP, or Sun.

Specifications

Weight: 450 lb. (204.1 kg)

Weight Capacity: 1800 lb. (816.5 kg) on casters

Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p.m. and you need help, but your vendor's tech support line is closed.

According to a survey by Data Communications magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
