

NetLink™ mDSL

Get DSL distance over just 2 wires!

Key Features

- ▶ Affordable broadband transmission over existing copper infrastructure
- ▶ 2-wire operation
- ▶ Multiple Digital Subscriber Line (mDSL) technology
- ▶ DTE speeds of 64 kbps to 2.3 Mbps in user-defined increments
- ▶ Multiple line rates of 128 kbps to 2.3 Mbps
- ▶ SNMP and HTTP network management
- ▶ CAP (Carrierless Amplitude and Phase) Modulation gives full duplex over just one pair

Overview

The NetLink™ mDSL provides affordable high-speed connectivity over a single pair of copper wires. Speeds up to 2.3 Mbps are possible as well as distances up to 8.9 km at lower rates. Speeds of 64 to 2304 kbps are available in 64K increments.

Choose from RS-232/ V.24, RS-422/530, X.21, V.35 and G.703 WAN interfaces or a 10BASE-T LAN interface.

The modules are interchangeable, so your investment is protected if your network configuration changes.

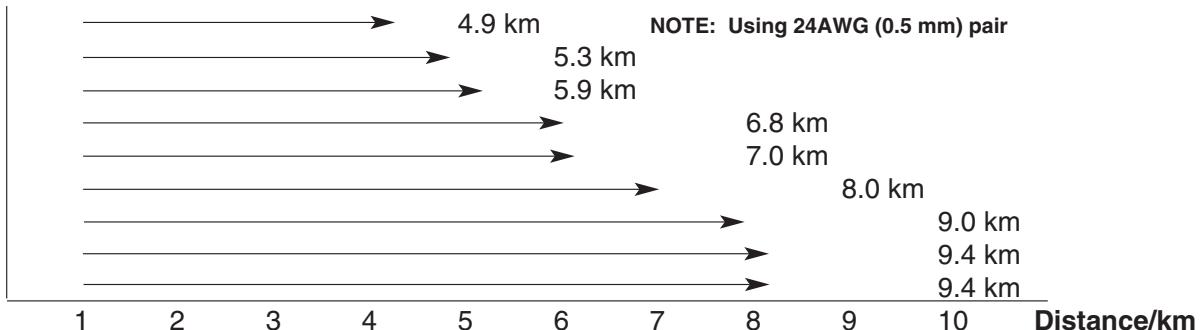

You can even use a different interface option at each end of the link, leaving the modems to do the conversion! When using the Ethernet version in this configuration, the industry-standard PPP protocol is used enabling connection to most routers over a V.35, X.21, or G.703 link.

The NetLink mDSL features a comprehensive range of V.54 diagnostics. Configure the NetLink mDSL via simple external DIP switches. Control and monitor it using SNMP/HTTP management.

Netlink mDSL modems are compatible with the Compact mDSL modems (MDU9705A), and mDSL cards for the Access Rack (MDU9700C).

Specifications

Clocking — Internal, external or receive recovered (network) clock	Line Rate — 128, 256, 384, 512, 788, 1024, 1596, 2048, 2304 kbps	Power — 90–260 VAC, 50–60 Hz, universal input (-48 VDC optional [10W])
Data Format — Synchronous, full-duplex over (1) unconditioned twisted-pair (2-wire) cable	Maximum Distance — 8.9 km at 128 kbps over 24 AWG/05-mm wire (no crosstalk)	Size — 4.1H x 18.5W x 16.8D cm Weight — 1 kg
Diagnostics — V.54 loops (LLB, RDL); V.52 compliant BER pattern generator (511/511E)	Interface — DTE: V.24 (RS-232/V.24), RS-422/530, V.35, X.21, 64K/G.703, Ethernet bridge or voice/data depending on mode	
DTE Rate — 64 kbps to 2.3 Mbps		
Line Encoding — CAP	Indicators — (8) LEDs: TD, ROI, CTS, CD, DTR, ER, TM, NS	

Ordering Information

Item	Code
NetLink mDSL Modem 90–260-VAC 48-VDC	MDU9700 MDU9700-48
