### Description

The FlexPoint™ 5 rack-mountable shelf was designed to hold up to 5 FlexPoint modules.

### Inventory:

The FlexRack kit includes the following hardware:

- (1) Shelf unit.
- (5) "L" shaped tab brackets.
- (5) Flat head screws, 4-40, 1/4 inch.
- (5) Pan head screws, 4-40, 1/4 inch.

### Installation

#### Warning:

Before installing a FlexPoint unit, make sure to disconnect it from its power adapter and to disconnect the power adapter from the AC power outlet.

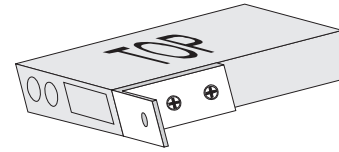

### Mounting:

Installing the FlexRack 5 is done in two steps:

#### Installing the Tab Brackets:

1. Remove screw from forward-side of the FlexPoint unit to be installed.
2. Align the screw threads of the FlexPoint enclosure with the holes in the bracket.

3. Attach bracket using the removed screw and a second 4-40 flat head screw (enclosed with the kit). Below is a picture of the FlexPoint with a properly attached tab bracket.

#### Installing the FlexPoint unit:

1. Slide unit into shelf. Rear of unit should protrude from the opening at the rear of the shelf.
2. Attach tab bracket to shelf using a 4-40 pan-head screw from the parts kit.
3. Follow any installation instructions in the FlexPoint User Installation guide.
