Mailing address: **Black Box Corporation**, 1000 Park Drive, Lawrence, PA 15055-1018
Web site: www.blackbox.com
E-mail: info@blackbox.com

Description

The FlexPoint™ Wall-Mounting kit was designed to attach one FlexPoint module to a wall, back-board or other flat surface. The kit includes the following hardware:

- (2) "L" shaped brackets.
- (4) Flat head screws, 4-40, 1/4 inch.
- (4) Wall mounting screws

Installation

Warning:

Before installing a FlexPoint unit, make sure to disconnect it from its power adapter and to disconnect the power adapter from the AC power outlet.

1. Align the screw threads of the FlexPoint unit with the holes in the bracket.
2. Attach one "L" bracket on each side of the unit using two 4-40 flat head screws (enclosed with the kit). Below is a picture of the FlexPoint with a properly attached tab bracket.
3. Attach unit to the desired surface using provided wall mounting screws.

4. Follow any installation instructions in the FlexPoint converter unit's Installation guide.
