

## CATx KVM Extender Rack Mounting Kit

RMK19U-X3 allows you to mount up to three of the following units across 1U:

### Remote Units

ACU2001A ACU2009A ACU2022A ACU22028A ACU2201A  
ACU2222A ACUR001A ACUR002A ACURA001A ACURA002A  
ACUR004A ACURA004A

### Local Units

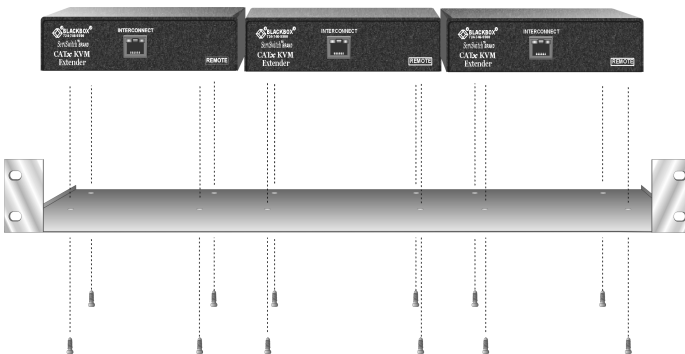

ACU2201A ACU2222A

**Note:** For other products use RMK19U-R2

The kit contains one rack plate and (16) M3 countersunk mounting screws.

To mount a unit:

1. Remove the feet from the extender unit.
2. Align the holes on the base plate with the vacant screw holes on the base of the extender unit.
3. Fasten the base of the unit to the plate of the mounting kit using the supplied screws.
